

“Stroke Prevention in Atrial Fibrillation”

January 20th 2011, 6:30-9:00pm
Holiday Inn Yorkdale
Toronto Ontario, Canada

Co – Chairs:
Dr. Gupta, MD
Dr. Verma, MD

Faculty:
Dr. Stuart Connolly, MD
Dr. Paul Dorian, MD
Dr. John Eikelboom, MD

Meeting Objectives:

1. To discuss the latest evidence surrounding stroke prevention, with a focus on understanding in which patient new anticoagulant options should be considered.
2. To highlight current knowledge gaps and opportunities for further research and CME initiatives in anticoagulant decision making for stroke prevention.

AGENDA

Dr. Milan Gupta	Opening Remarks
Dr. Paul Dorian	Time in Therapeutic Range – Can it Be Optimized?
Dr. Stuart Connolly	Dabigatran – A New Era in Stroke Prevention
Dr. John Eikelboom	New Anticoagulants on the Horizon
Dr. Subodh Verma	Group Discussion
