

“CV Prevention in Diabetes - Focus on the South Asian Patient at Risk”

**Wed. June 24, 2009 – 6:00 pm
Portobello Restaurant
341 Main Street North, Brampton
905-457-8222 @ 6:00pm**

- Learning Objectives:**
1. To review the latest evidence and guidelines in managing CV risk in diabetics.
 2. To explore the relationship between ethnicity and cardiometabolic risk.

This interactive meeting featured brief presentations by Dr. Milan Gupta and Dr. Subodh Verma, followed by dinner and discussion. The participants were Primary Care Physicians and Internists with an interest in cardiovascular prevention and ethnicity.

This event was funded by CCRN through an unrestricted grant from Boehringer Ingelheim Canada
