

The FH Patient Hiding in Your Practice: How to Find Them and What to Do

Get all of your burning questions in dyslipidemia answered by the experts!

Wednesday,
November 13, 2024
7:00 - 8:00 pm EST

Dr. Milan Gupta

MD, FRCPC, FCCS, CPC(HC)

Assistant Professor, Department of
Medicine, University of Toronto
Medical Director,
Collaborative CME and Research Network
Brampton, ON

Robert A. Hegele

MD, FRCPC, FACP, FAHA, FCAHS

Director, London Regional Genomics Centre,
Distinguished University
Professor of Medicine and Biochemistry,
University of Western Ontario,
London, ON

FH is more common than you think, and most physicians have these patients in their practices without realizing it. Join this session to learn how to suspect, easily diagnose, and manage these patients. We will also cover how to order and interpret genetic testing, and when to refer.

Learning Objectives

Following participation in this program, participants will be able to:

- Learn how to identify and confirm the diagnosis of FH in your dyslipidemic patients
- Understand the various treatments available and treatment targets
- Discuss the role of genetic testing and specialized lipid clinics
